Improved Elevations

Current planning approval (ref 20/00315) allows for two pitched extensions, front and rear) to a height of 5.45 metres

Overhang on pitched roof reduces light escape from apex windows.

East Elevation (from road)

Timber cladding will help to improve external appearance

Most of the original buttresses are concealed by the pitched roof. Removal of the top of the two buttresses may be necessary.

West Elevation (from heath)

1.2 metre door to conceal satellite dish for live streaming

South Elevation (from car park)

Apex windows
Design to be agreed

Opening windows for ventilation

Timber cladding extends down to approx 1/4 - 1/3 the height of the wall.

Extent of cladding around red-brick extensions to be decided

North Elevation (view from Hatchet Pond)

Emergency door moved to centre of pitched area.
